1 **Statement of Exclusion**

2 Sira Reference Number: **Sira 11E102** Issue: **0**
3 Products: **H4 ATEX - Leather case for Motorola GP Series Atex Radio**
4 Manufacturer:
5 Address:

Ashford
Middlesex, TW15 1NS

6 The product has been assessed with reference to the regulations defined in Directive 94/9/EC and the Guidelines on the Application of Directive 94/9/EC, published by the European Commission (<http://ec.europa.eu/enterprise/atex/guide/index.htm>).

7 Sira has reviewed the design and construction of the product listed. It is Sira's opinion that the product does not fall within the scope of Directive 94/9/EC. The basis of this judgement is detailed as follows:

The product does not have any moving parts, electrical circuits or other parts that would provide an effective ignition source under normal operation, expected malfunction or rare malfunction.

The product does not have its own source of ignition, therefore does not fall within the scope of Directive 94/9/EC

8 This product cannot be assessed in accordance with the conformity assessment procedures of Directive 94/9/EC and as such does not require EC type examination or marking as defined by that Directive.

9 This statement of opinion relates only to the design and construction of the specified equipment with respect to Directive 94/9/EC.

10 Requirements of other EC Directives may apply to the design and construction of this equipment.

11 The manufacturing process relating this equipment has not been assessed and is not the subject of surveillance by Sira.

12 The manufacturer is not required to inform Sira of design changes and as such this statement relates only to the design, assessed as submitted prior to the date of this statement.

13 The definition of the scope of products falling within the scope of Directive 94/9/EC is ultimately the responsibility of the EU standing Committee for the Directive. Sira's opinion is offered in lieu of a specific consideration by the standing committee.

14 This Statement of Exclusion does not preclude the application of local, national or international codes of practice for installation selection or maintenance for any products used in potentially explosive atmospheres.
